Kumar Mayank

Full-Stack Developer | Open-Source Contributor | Backend Enthusiast

+91 9508553567 | mk3631780@gmail.com | LinkedIn | GitHub

Education

Dayananda Sagar College of Engineering, Bengaluru **2024 – 2028**
Bachelor of Technology in Data Science Engineering *CGPA: 8.91*

Open-Source Contributions

Open-Source Contributor *2026*
Hiero Ledger (Solo) | OpenFoodFacts

- Contributed bug fixes, code improvements, and documentation updates to established open-source projects through GitHub pull requests.
- Worked with TypeScript, JavaScript, automated testing, CI workflows, and code quality tools to improve software reliability.
- Collaborated through issue investigation, debugging, Git workflows, and automated verification using Mocha, ESLint, and TypeScript.

Projects

FleetMind – Real-Time Fleet & Transport Management Source Code
Full-stack fleet monitoring, shipment tracking, and route intelligence platform

- Built a real-time fleet control tower with GPS telemetry, truck status monitoring, shipment tracking, and interactive maps.
- Implemented Socket.IO telemetry simulation and REST APIs for shipment, trip, and route management.
- Developed route optimization, ETA estimation, fuel/cost calculations, and rule-based fleet intelligence.

Personal Task Automator Source Code
AI-assisted task management and productivity platform

- Developed a full-stack application with CRUD APIs, task prioritization, and automated task management.
- Implemented task statistics, activity history tracking, and persistent data management using SQLite.
- Built backend services using Node.js, Express.js, JavaScript, and REST APIs.

QR-Based Attendance System Source Code
Secure role-based attendance platform with QR verification

- Developed a role-based attendance system supporting students, employees, and administrators.
- Implemented QR verification, JWT authentication, and bcrypt-based password security.
- Built MongoDB-backed REST APIs for secure attendance management and verification workflows.

Technical Skills

Languages: C, C++, Python, JavaScript, SQL, HTML, CSS

Frontend: React.js, Tailwind CSS, Vite

Backend: Node.js, Express.js, FastAPI, REST APIs

Databases: PostgreSQL, MongoDB, SQLite

DevOps & Tools: Docker, Docker Compose, Linux, Git, GitHub Actions, Postman, npm

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Coding Profile

Solved **350+ problems** across LeetCode, Codeforces, and GeeksforGeeks.

Activities

- Active Member, AWS Cloud Club, Dayananda Sagar College of Engineering.
- Completed The Complete Web Development Bootcamp – Udemy.
